EDUCATION

B.E., Information Science and Engineering, NMIT 2022 - 2026

CGPA: 8.66/10.00 (up to 4th semester) Course works: Object Oriented Programming, Full stack development, Computer Networks, Data structures and algorithms

Pre-University Education 2020-2022

Aggregate: 96.33% Karnataka State Board

EXPERIENCE

Infosys Springboard Internship – Java Technology Stack Intern (June – September)

- Designed, developed, and deployed enterprise applications using Java SE, Java EE, Spring, and Hibernate.
- Built backend services, RESTful APIs, and optimized databases using JPA and SQL.
- Worked on full-stack development, integrating Java backends with frontend technologies like HTML, CSS, and JavaScript.

PROJECTS

Google Map Travel Companion Application—React.js

Designed and developed a dynamic travel companion application using React to integrate Google Maps API, providing users with real-time navigation and location-based services.

Implemented interactive features such as destination search, route planning, and nearby points of interest (e.g., restaurants, gas stations, attractions).

Enhanced user experience through responsive UI/UX design, leveraging React Hooks and State Management for seamless performance.

Integrated third-party APIs for weather updates and live traffic information to optimize travel planning.

Deployed the application using Netlify/Heroku to ensure accessibility across devices.

Vehicle Rental Management System — HTML, CSS, JavaScript, PHP

Built a responsive full-stack booking system with automated notifications and admin hierarchies.

Implemented flexible filtering options, data export capabilities, and duplicate booking prevention mechanisms.

SKILLS

- **Languages**: Python, HTML5, CSS3, JavaScript (ES6), Java
- **Frameworks & Libraries**: React.js, Next.js, Tailwind CSS,
- **Database/ORM**: PostgreSQL, JPA
- **Tools & Tech**: Git, GitHub, Jira, VS Code, Figma, Canva

Soft Skills

- Leadership
- Teamwork
- Problem Solving
- Analytical Skills
- Adaptability
