Objective

Aspiring software developer with a strong foundation in programming and problem-solving, seeking opportunities to contribute to impactful projects and continuously grow in the tech industry.

Education

B.E., Information Science & Engineering, NMIT 2022 – Present
CGPA: 8.63/10.00 — Coursework: OOP, Database, OS, Networking

Pre-University Education - PCMB, Royal Independent College 2020 – 2022
Aggregate: 96.3/100 — Karnataka State Board

Projects

AutoPrice ML – Predictive Car Price Analysis *Pandas, NumPy, Scikit-learn*

- Collected and cleaned historical car data (brand, model, year, mileage, features) for reliable analysis.
- Developed predictive models using Linear Regression to estimate car resale prices.
- Utilized Python libraries (Pandas, NumPy, Scikit-learn) for preprocessing, training, and evaluation.
- Delivered real-time price predictions to assist buyers and sellers in making informed decisions.

AI-Driven Bedtime Stories App *BERT, Gemini, NLP, React, Node, MongoDB, Firebase, TTS*

- Developed an AI-powered app that generates personalized bedtime stories.
- Integrated text-to-voice for interactive storytelling.
- Deployed on Vercel with responsive UI in React + Tailwind CSS.

Task Manager - Productivity Engine *React, Node.js, Express, MongoDB, Redux, Tailwind CSS*

- Built a full-stack Task Manager with CRUD, JWT auth, bcrypt hashing.
- Designed a responsive UI with drag-and-drop, tagging, and deadlines.
- Developed REST APIs with Express.js and Mongoose, integrated Redux.

Skills

Languages: Java, HTML5, CSS3, JavaScript
Frameworks: React.js, Node.js
Tools: VS Code
Soft Skills: Communication, Teamwork, Time Management, Critical Thinking

Courses and Certifications

- Operating System — Coursera
- Database Management System — Springboard

Hobbies

- Playing cricket and mobile games to relax and stay active.
- Watching movies (thrillers & sci-fi) to explore creativity and storytelling.
